Don't get too excited – it may not last; but here is what many have been crying in their beers for lately. I (Perky) shall attempt to keep it up (said the Bishop .....), but it will require HELP from you all. So, to stimulate action from YOU, I shall re-invigorate previous major concerns and their consequent discussions (arguments?).

Important reasons for a Shag are: to help newcomers know more about the group and feel more involved; to provide a run sheet for those not easily able to access the web; and of course wipe your bottom - of your beer glass.

THE FIRST MAJOR CONCERN is our Chapter name (Chapter being the HASH term for “branch” for those not familiar). I propose a competition with the suggestion emailed or handed to me. The winning name could be **chosen by**: a) those submitting; b) the Committee; or c) at the AGM (another item for another **vote by**: the ..... ) → Add your wish of how to choose the name to your suggestion. If you email, please put “Hash Name” as the subject (not your suggested name) – or my spam filter will spit you out. The winner will receive whatever Hash Cash can afford.

The reason behind this item is that over recent years some have considered that Kennet & Avon does not reflect the limited location in which we run, and that it is centred on Bath. We do not run the whole length of the Avon and where is the Kennet? (30 miles away by my map) {Yes I know it's named after the canal, but who from afar will know that?} However, if you wish the name to remain the same, please send that in also.

Further MAJOR CONCERNS in future Shags.

For novices to the worshipful art of HASHING, and for those who do it wrong, there will be a regular feature of HOW TO (the K&A way).

HOW TO: 1.1

Hounds should only call ON ON if they themselves have seen 3 blobs: it has been known for lead hounds to call incorrectly and others follow shouting ON ON when they are actually NOT ON.

Call “ON ON CALLED” if someone has called ON, but you yourself have not seen 3 blobs.

## GENERAL INFO:

The Portcullis at Tormarton is now "The Major's Retreat".

And, last but by no means least the HASH needs write ups of runs as a reminder of how good (??) they were – and who did what. If you are shy at having your name in print I could keep your write up anonymous if you request.

Oh, and I (PERKY) is Fred Parkinson and Pam Penkman is PINKY !!!! (Stats will read different with this correction.)

Perky's email is: fp@dsl.pipex.com

**(If you require more information circulated than wot is on the web run list, then let me know and I can include here.)**

**The Rising Sun, Winsley Road, Bradford-on-Avon. Wednesday 21 March 2007**

Picture of start to be provided by visiting Hasher - ??

Venue: Excellent fire, but hot poker makes beer smell of sulphur.  
Excellent beers.      Parking, non existent.

The Run:

Le Caniveau's apology for the Marshfield run. Hence, turned out to be quite good.

Some hic-ups by hounds not checking out all available routes at some checks, and running past not-obvious checks.

Star gazing by Clem's stand-in (Chickpea (& others)) delayed efficient use of running time.

Down Downs appeared for once (excuses for no Down Downs often being who should do them – needs a Committee decision !). Issued to: Le Caniveau for the wonderful run, and Chick Pea for stopping Gazza from checking out by asking what each light in the sky was.

Mixed run of tarmac and fields. Hash went into depression when it was forced to run part of Puki Jangut's awful heavy rain Hash of some weeks ago.

Several whimps failed to complete the course – see Hole of Shame.
